# Away is good, Blekinge is best

Dramatic nature, salty archipelago and genuine attractions. Blekinge is full of experiences you should not miss.

## Marine Museum is at the top

Of all Blekinge's attractions, the Marine Museum in Karlskrona is one of the most popular. It offers a unique collection that mirrors Sweden's seafaring history from then till now, for young and old alike. Ship simulator, craft workshop, museum boutique, restaurant and much more to discover.

## Take a trip over the bridge

Along by the South-eastern trail (Sydostleden) lies Sölvesborgsbron – Europe's longest pedestrian and cycle bridge. You can sit on the bridge and enjoy the birdlife and the beautiful view over the water. The bridge stretches majestically from Sölvesborg's town centre via Kaninholmen (Rabbit Island) over to the entrance to Listerlandet. So jump on to your bicycle and discover what's out there!

## The year's hottest cold-water bath house

Karlshamn's Kallbadhus is designated as one of Sweden's best cold-water bath houses by the Vagabond Journal 2021. The spectacular building is designed by White Architects and reminiscent of a flying saucer hovering over the water. You can bathe in the sea here all year round, sit in the sauna or just enjoy the view over the archipelago from the sun terrace. In the area is also an indoor swimming pool, outdoor pool, sea bathing, paddle circuit and outdoor gym.

## Surface tension

Paddling a sea-kayak or gliding along on an SUP is a perfect way to experience the beautiful waters of Blekinge. Go seal-spotting in the archipelago or paddle on a tranquil inland lake. Perhaps pitch a tent on a little island? Kayaks and SUPs are available for rent from several places in Blekinge, e.g. Verkö Kajak, Kajaksyd, Paddelkompaniet and Halens Kanotcentral. Often campsites also have rentals.

## Ronneby Brunnsark

Brunnsarken has been voted as Sweden's most beautiful park and is the pride of Ronneby. Throughout the park are lovely walking paths which take you through the park's gardens and past beautiful buildings from the era of the wells. Why not pause at a cosy café or visit the adventure baths with slides, water channels and hot pools. Adjacent to the park is the spa hotel Ronneby Brunn, tennis courts and an 18-hole golf course.

## Charming Kristianopel

Kristianopel is a beautiful village by the sea with its origins in the 1600s, at that time it was a town belonging to Denmark. Which is why they still sometimes fly the Danish flag. Here you can stroll among the quaint wooden houses and rose gardens, eat at one of the many cafés or walk on the remains of the defence walls. There are also plenty of bathing spots if you want to cool off.

### Breathtaking views on Aspö

Outside Karlskrona, in the middle of the archipelago, lies Aspö island, which you get to by the ferry that passes, among other things, the remarkable defence tower “God natt” (“Good night”) along the way. Once at Aspö you can enjoy the beaches and rock bathing. Visit small art galleries or World Heritage designated Drottningsskär Castle. If you want to stay overnight, there are opportunities to stay in the old Lotstornet or one of the adjacent cabins. You can get around the island by car, but the experience is better by bicycle or on foot through the beautiful countryside.

### Popular Tjärö

In the middle of the archipelago lies this pearl surrounded by islands and islets. The whole island is a nature reserve with lush oak pastures and rocky bathing bays. In the picturesque archipelago village, with beautiful buildings from the 1800s, you can stay in both hostel or hotel, or rent your own cabin. Take the opportunity to fish, rent a kayak or sauna raft, and don't forget to visit the restaurants open in season. You take the tour boat from Karlshamn and Järnavik to Tjärö. During high season you can also take the boat from Matvik. If you come in your own boat, there is a large guest harbour.

# Make landfall in the island realm

Blekinge's island-rich archipelago offers so much more than sun, bathing and fishing. Magical places, beautiful archipelago villages and great food experiences. Cast-off to four islands that are absolutely worth visiting.

### Idyllic Stenshamn

In Karlskrona's eastern archipelago lie Stenshamn and Utlängan. A genuine archipelago idyll with footpaths, birdlife and bathing opportunities. In the harbour are guest places for leisure craft and Pelle's boathouse where you can get a snack and eat ice cream. The regular archipelago ferries from Karlskrona arrive and depart from here. Perfect for a day's outing but if you want to stay on the island there is the possibility to rent a cabin.

### Fabled Hanö

The ferry goes from Nordersund on the mainland out to Hanö. An island associated with fables and exciting stories, but also a summer paradise for many. The famous Drakmärket, Lighthouse and the English Cemetery are here. The countryside offers hornbeam forest with native fallow deer and you can also experience the so-called Bönsäcken (Prayer sacks) where water worn rocks change shape with the sea winds. There are fine bathing spots and the harbour tavern Fisky Business is open in season.

## AN UNDISCOVERED PEARL

Some know Blekinge, but for many it is still an undiscovered pearl, far from exploited tourist destinations where tens of thousands crowd into a small area. Distances are seldom longer than one hour's journey by car or public transport. If you just want to stay in the caravan or cabin, there are plenty of activities around every camp site.

# Take the waterway through Blekinge

---

Blekinge archipelago takes you from Utlängen and Stenshamn in the east to Hanö in the west. In between, historical places, picturesque islands, bathing spots and fishing villages await.

---

## GET OUT INTO THE ARCHIPELAGO

To experience Blekinge's best side you need to get out into the archipelago. The nicest and sometimes the only way is to travel with the archipelago transport. Certain tours go all year round, but the best selection is in the summer. In Karlskrona the majority of boats depart from Fisktorget in the middle of town. From there you can reach the eastern archipelago, take guided tours or take the charming M/S Axel through Nätrabyån.

## ROUND TRIP

Sometimes a round tour is enough. In Karlskrona there is a Hop-on Hop-off; open boats that make jetty stops at different places in town, among them the Maritime Museum. In Ronneby you can take the M/F Astrid along Ronnebyån river past the greenery of Brunnsparken. The journey continues a short way out into the Ronneby

archipelago before it turns back. In Karlshamn you take the boat to Kastellet which lies at the inlet to the harbour, or you take an excursion boat to charming Tärnö and Tjärö islands.

## OPEN WATER

If you want to broaden your horizons you can take the Kustlinjen along the Blekinge coast from Karlskrona to Karlshamn. From Karlskrona you travel with M/F Flaggskär from Handelshamnen and from Karlshamn you travel with M/F Tuva. In Ronneby harbour you change boats if you want to go further. From Nogersund fishing village, near to Sölvesborg, the boat goes out to popular Hanö island. In addition to natural beauty and exciting attractions, there are also great bathing opportunities.
